

International Series of Lectures in over 60 countries

Spiritual Healing **- medically verifiable -**

**Physicians and healing practitioners report on their experiences
in over 400 lectures worldwide**

Bruno Groening (1906-59)

A higher power exists which can help everyone. It is a part of all religions and was known to physicians centuries ago. This ancient knowledge unlocks the door to help and healing once again to people seeking it. It is based on the teachings of Bruno Groening (1906-1959), who became known through his great healings.

Medical specialists, physicians and healing practitioners worldwide belong to the forum of the Medical Scientific Group of the Bruno Groening Circle of Friends. They desire to inform their colleagues and tell people generally of their experiences. Through their medical verification of numerous healing reports they became convinced that people can become free from illness in a natural way.

Lecture contents:

- ▶ Possibilities and limits of spiritual healing
- ▶ Medically verified healings are presented and explained in an understandable way
- ▶ Healed persons relate how they became free from emotional, organic and so-called medically incurable ailments
- ▶ The absorption of the healing power can be experienced in the lecture
